

ACCESSIBILITY STATEMENT

We are dedicated to ensuring our website is accessible to as many visitors as possible, regardless of their ability or technology. We aim to adhere as closely as possible to the Web Content Accessibility Guidelines (WCAG 2.0, Level AA) published by the World Wide Web Consortium (W3C).

These guidelines explain how to make Web content more accessible for people with disabilities. Our accessibility tests on the site's pages include (but are not limited to) testing correct heading structure, good keyboard operability, sufficient color contrast, and screen reader support.

We test our pages with an NVDA screen reader on Windows desktops and with a VoiceOver screen reader on mobile iOS devices.

We are actively committed to increasing our site's website accessibility and welcome suggestions and ideas to make our site more accessible for all users.

If you are having difficulty accessing our site, please reach out to us using the contact us page.
